the essentials

**off-road
SUV**

**4-wheel
drive**

**hill descent
control**

**up to 185
horsepower**

**motorised
tailgate**

**modular
space**

sculpted design

With its assertive silhouette, muscular shoulders, and imposing front grille, Renault Koleos wins you over from the first glance, with its athletic power. This is an SUV that boasts raised ground clearance, skid plates high on the bumper and 19-inch wheels. Its 100% LED light signature also leaves an impression.

1. Heated, ventilated and massaging driver's seat

a new vision of comfort

The finish in the Renault Koleos passenger compartment is meticulous, right down to the smallest details: satin chrome for the inserts on the steering wheel, gear lever and air vents; padded materials on the dashboard and door trims; covered grab handles*; Nappa leather upholstery** with Initiale Paris top-stitching. In the front, the seats are electrically adjustable heated, ventilated and massaging for the driver*. In the rear, your passengers enjoy generous space and a reclining bench seat that is ideal for long journeys. The spacious passenger compartment is an invitation to well-being.

* depending on the version. ** depending on the version. All seats mentioned as being leather in this document are made of real leather and coated fabric. Please contact your sales advisor for more details on the leather materials used.

1. hill descent control diagram
2. technologie quatre roues motrices

dominate all types of terrain

Allow yourself to be tempted by adventure and go off the beaten track with All Mode 4x4-i technology. Switch from 4x2 to 4x4 in the blink of an eye and discover its amazing off-road capabilities. Your vehicle will maintain perfect grip whatever the circumstances due to the optimal distribution of torque between the front and rear wheels. Discover the new hill descent control technology, which will help you secure your route when driving down a slope. The vehicle automatically adapts its speed depending on the slope.

**new performance
features**

What with its horsepower level of 185 hp, top-level driving pleasure and its 4x4 mode, the Blue dCi 185 X-Tronic all mode 4x4-i engine is the perfect companion for your on- and off-road adventures. The qualities of its 4x2 version will also win you over. The TCe 160 EDC petrol engine combined with the EDC dual-clutch 7-speed automatic gearbox keeps its word: performance, pleasure, smooth, silent driving. Already compliant with the latest European regulations, it has emerged as one of the most efficient in its category.

1

1. two front seat configuration
2. 1/3 folded configuration in row 2
3. easy folding system
4. electric tailgate with hands-free opening

2

3

as simply as anything

4

Koleos makes daily life easier. Have you got your hands full? To open the boot, place your foot underneath the rear bumper. And, thanks to the easy folding system, the rear seats vanish instantly, one by one or all together to form a flat floor, according to your needs.

1. Smartphone replication via Android Auto™
2. Induction smartphone charger (available from After-Sales)
3. 3D navigation interface on 8.7" central screen

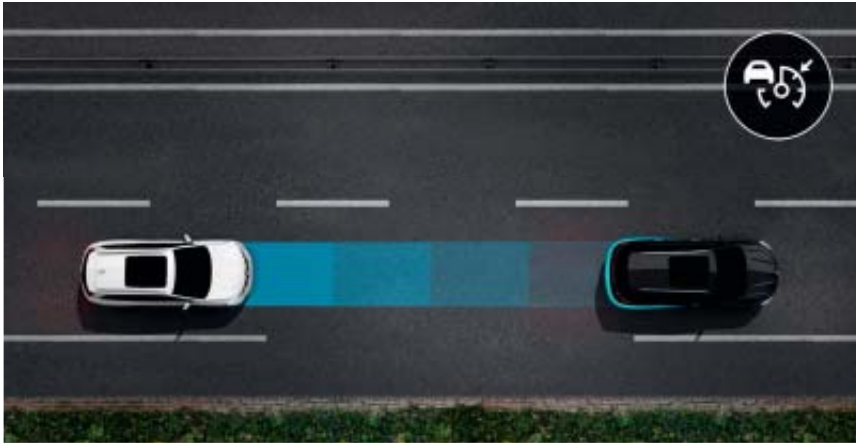

**technology
by your side**

3

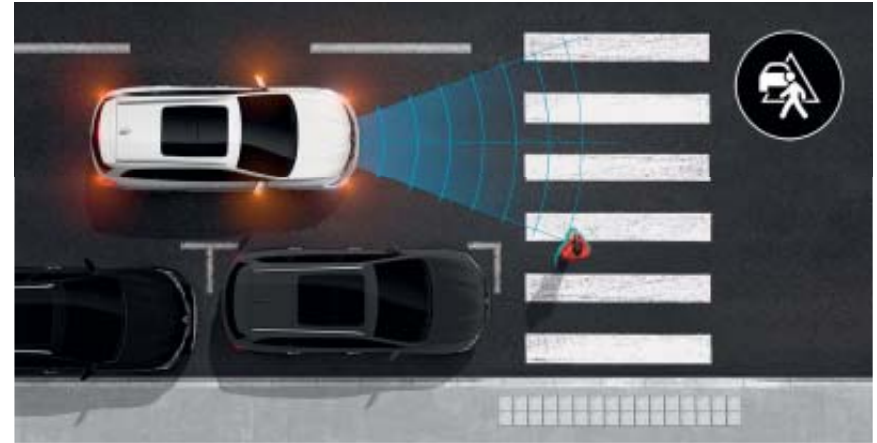

In the cockpit, you will find a vertical, high-resolution 8.7" touch screen on the central console. This veritable on-board computer provides access to connected navigation services (with European maps) and enables you to control the advanced driving assistance systems and multi-sense technology. Thanks to the R-Link 2 system, access your favourite applications through Android Auto™ or Apple CarPlay™ compatibility. Finally, easily recharge your smartphone using the induction charger.

Android Auto™ is a Google Inc. brand.
Apple CarPlay™ is an Apple Inc. brand.

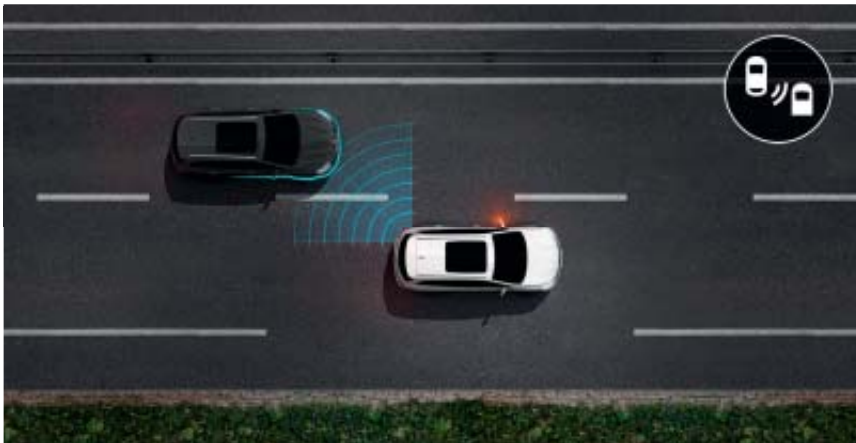

adaptive cruise control

This system helps you maintain a safe distance between you and the vehicle in front of you while driving. The system applies the brakes when the distance is too short, and then activates the accelerator when the road is clear again.

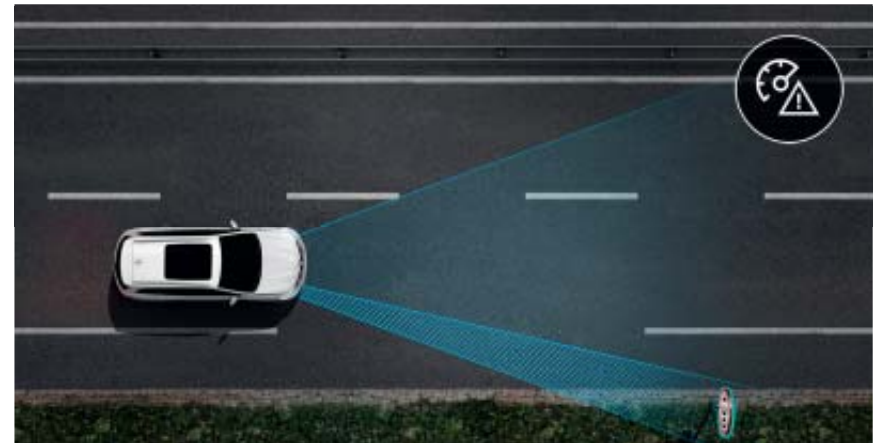

active emergency braking system with pedestrian detection

This system detects pedestrians to the side or in front, then stops the vehicle in the event of any danger. Driving in the city has never been so safe, day or night.

blind spot warning

Active above 15 km/h, this system uses warning lights to alert you to the presence of vehicles that are not visible in your field of vision.

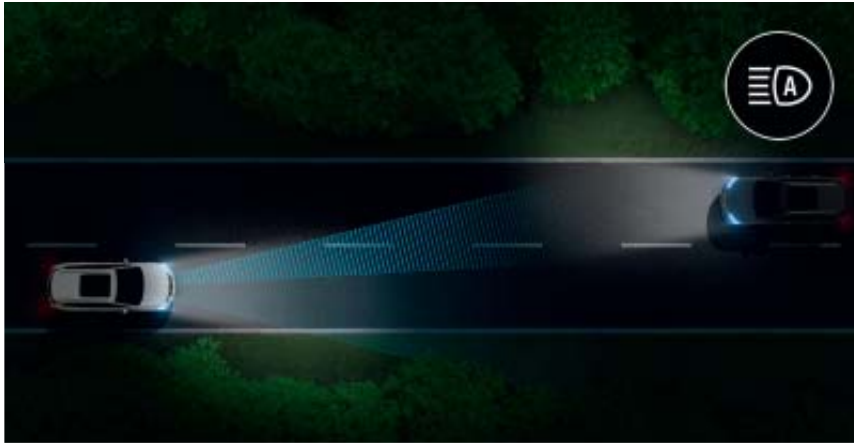

road sign recognition and speeding alert

This system informs you of speed limits via the instrument panel and alerts you if you exceed the speed limit through a camera positioned at the top of the windscreen.

7 advanced driving assistance systems

Renault Koleos is equipped with seven advanced driving assistance systems. Tried and trusted, it promises a safe and secure driving experience.

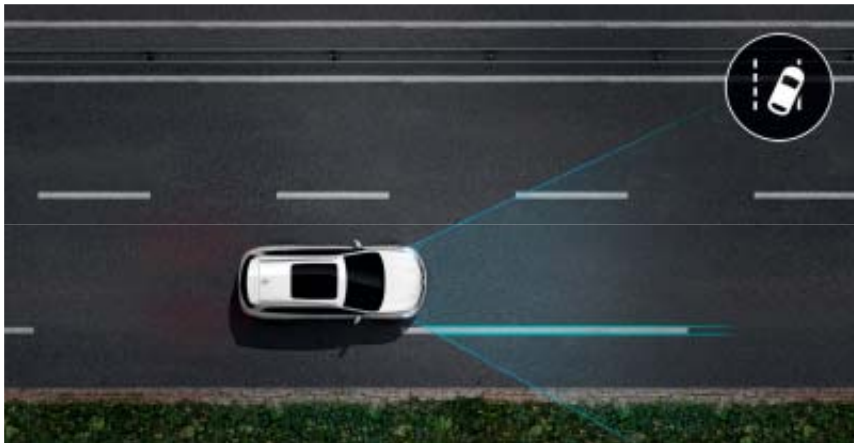

automatic switching between main beam/dipped headlights

This system works using a camera positioned at the top of the windscreen. The camera analyses light flows based on lighting and traffic conditions.

hands-free parking

This system makes it easier to park. Your vehicle handles both finding a parking spot and steering. All you need to manage is the speed.

lane departure warning

This system lets the driver know if they unintentionally cross any solid or broken lines, using a camera located on the windscreen, behind the rear-view mirror.

(1) fuel consumption and CO₂ emissions are certified using a standard, regulated method. It is identical for all manufacturers and allows vehicles to be compared. (2) actual fuel and AdBlue® consumption depends on vehicle use, equipment, the user's driving style and loading. (3) the payload indicated is at the lowest equipment level.

accessories

- 1. Quickfix roof box and roof bars.**

This attractive black embossed box with 480 litres of space increases the load volume of your vehicle. It can be transported using our aluminium roof bars. No need to worry: these can carry up to 80 kg of load without effort.

2. Rear sport kit. At the front and the rear, the sport kits redesign your Renault Koleos' bumpers, adding an extra touch of fierceness.

3. Premium sidesteps. Highlight the design of your Renault Koleos' lines with premium sidesteps. These practical sidesteps make it easier to access your vehicle and its roof. They also protect the body from everyday minor dents.

4. Electric retractable towbar. Take your mountain bikes on a weekend getaway or tow a trailer, thanks to the electric retractable towbar. When not in use, it folds away out of sight with a simple push of a button in the boot, thus preserving the design of your Renault Koleos.

5. Adaptable Easyflex protection. Non-slip and waterproof, it is essential for protecting the boot of your vehicle and carrying bulky or dirty loads. It folds and unfolds very easily, adapting to the position of the rear seats.

Renault care service

We are always at your side to make life easier and save you time with the maintenance of your Renault: online quotes and appointments, fixed price packages, maintenance contracts, insurance and assistance, personalised My Renault programme... Take advantage of our simple, fast solutions tailored to your needs.

your first steps

All the information you need can be found:

- on our websites: our ranges of products/services/finance, book a test, etc.
- in our dealership network: meet our sales and technical teams.

100% covered

Guard against the unexpected with our extended warranties, Renault assistance and insurance policies, which are always there for you.

My Renault, your vehicle at your fingertips

Enjoy the benefits of a personalised web account, especially for advice, offers, exclusive perks, maintenance programme reminders, your upcoming appointments, etc.

Renault care service expertise

Our Renault care service maintenance contracts or fixed price packages offer you the benefits of a bespoke all-inclusive package.

customise your Renault

Our range of accessories contains everything you need to make your vehicle more attractive, practical, comfortable and customised.

the iconic Scenic RX4

the family adventurer

The predecessor to the excellent Renault Koleos, Renault Scenic RX4 was a smooth and stylish performer in the early 2000s. The first compact MPV with four-wheel drive, it had a more fun look than the basic version. Fans were not disappointed. When it appeared in 2001, it made an instant impression: a muscular front end, imposing bumpers, anti-scratch side guards and a spare wheel firmly attached to the rear hatch - nothing was missing from its off-road kit!

But more than just looks, the RX4 also offered great handling despite its heavier weight. On the all-terrain side, our off-roader was up to the task, both literally and figuratively, with 21 centimetres of ground clearance and an all-wheel drive system that ensures traction and agility. Obstacles, holes, bumps, hollows, sand, mud, pebbles, nothing impeded its progress - far from it.

Thanks to the distribution of traction between the front and rear wheels, there was no need to worry about anything; any slipping was easily controlled. The system made it possible to venture onto the most improbable terrain with complete confidence, especially as all four wheels braked in unison thanks to the ABS. Over the years, the RX4 has found its audience, from workers in hostile terrain to families who love the great outdoors: it invites everyone to get off the beaten track without sacrificing comfort...

After selling just over 40,000 units, the RX4 was quietly retired in 2003 when the new generation Scenic was born. Today, Koleos takes up the torch with panache, refinement and features that match expectations for a contemporary top-of-the-range family SUV.

→ 1st four-wheel drive MPV

→ 40,000 units sold
